

August 5, 1938

Mr. John H. Clark, Engineer
Panguitch, Utah

Dear Sir: REL: BOULDER CREEK DISTR.

Under separate cover, I am forwarding to you your map showing the proposed reservoirs, existing and proposed canals, and lands to be irrigated under the Boulder Irrigation and Reservoir Company's system, which you so graciously loaned me in keeping with my letter to you of July 26, 1938. I wish to assure you that I appreciate your courtesy in this matter.

From your original tracing, I have had two blueprints prepared. These prints have been filed with the Boulder Creek Distribution Report for 1937 by Mr. Francis Lyman.

Yours very truly,

T. H. Humpherys
STATE ENGINEER
